Table represents the annual allowance of tax free spending for each household and the dollar rebate they will receive to compensate.

Name, address, age, and social security number for each recipient will be required to be submitted to receive the verified prebate.

Adult = 18 yr old or older    Children = under 18

Two Married Adults filing for monthly prebate together = the same monthly prebate total as Two Individual Adults filing separate.  
 There is NO marriage advantage.

For families with more than 6 children under 18 simply add an additional \$67 in monthly prebate allowance for each additional child.

Adult children living in the household (18 yr & older) will file separately for 1 adult prebate.

<sup>1</sup> Those living in Alaska and Hawaii will receive a slightly higher monthly prebate to compensate for a much higher poverty level and a much higher cost of living.
